Property Description

Casa Ron Ron is a unique villa set on a slope in Playa Ocotal overlooking a quiet bay. It is called for the Ron Ron tree, which is integrated into the cantilevered deck and provides a breathtaking view of the Pacific Ocean. The legendary Costa Rican architect Victor Caas constructed this futuristic 4,500+ square foot glass and concrete residence. The entire side of the house is a wall of windows, both on the lower and higher levels, providing magnificent views of the ocean and wildlife. Enter the open living/dining area, which leads to the expansive deck. . The sunken living area features an L-shaped dining table that seats eight people, or dine al fresco on the huge patio. With pool and ocean views from the huge kitchen, you won't mind cooking. A 6-burner gas stove, oven, microwave, dishwasher, and a wide breakfast bar are included in the kitchen. A gas BBQ is also available in the pool bar area.
